## **Dover Artificial Lift and Liberty Lift Solutions Enhance Partnership** *Alliance Brings Customers a Holistic Approach to Rod Pump Applications*

### **The Woodlands, Texas**

Dover Artificial Lift and Liberty Lift Solutions have strengthened their long standing relationship by combining World Class Brands, Products and Expertise to offer the **Liberty Lift Long Stroke (XL) Pumping Solution**. This unit will provide a rod pump solution ideally suited for work in deviated, deep or high volume wells to manage production cost at an optimum level. Dover Artificial Lift's suite of Norris Rods, Harbison-Fischer Pumps, Energy Automation VSD/Controllers and chemical management programs make this partnership a great fit for both companies and a terrific value for our customers.

### *Paul Mahoney Quote:*

We're very excited about expanding our relationship with Liberty Lift to provide Artificial Lift Solutions for larger volume, higher demanding rod lift applications. This is consistent with our innovations strategy to provide cost effective packages and widen the acceptable operating envelope to help our customers maximize their production goals.

**About Dover Artificial Lift:** Dover Artificial Lift is the Leading Authority on Artificial Lift and has a complete portfolio of Lift types for all stages of well performance. We employ technical expertise from application thru failure analysis. Our data driven and consultative approach focuses on customer success; maximizing your production targets while lowering costs.
